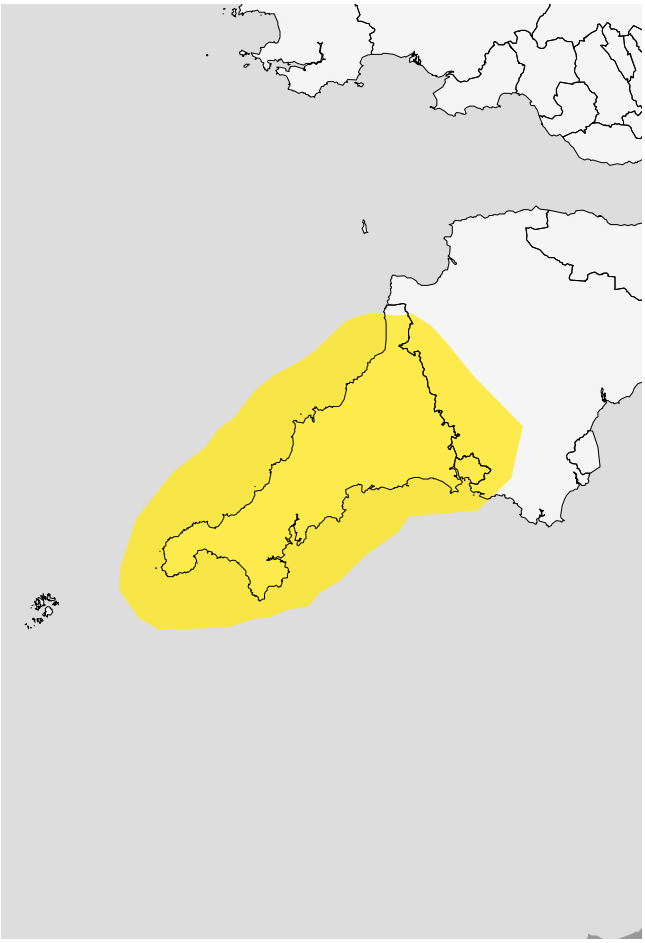
Yellow warning
Snow & Ice

Between
00:00 Tue 17 Jan 2023 and
10:00 Tue 17 Jan 2023



Rain, sleet and snow followed by clearing skies leading to icy stretches and some disruption to travel.

What to expect

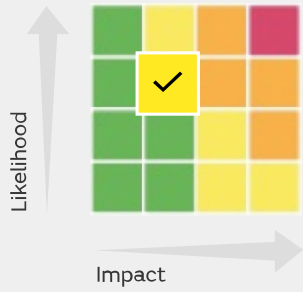
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some roads and railways likely to be affected with longer journey times by road, bus and train services

Further details

Occasional rain and sleet will turn to snow in heavier outbreaks, particularly over south Cornwall, with the possibility of 2-5 cm of snow accumulating, chiefly above 100-150 metres. This will clear from the north towards dawn with temperatures falling below freezing, bringing the risk of ice.

Reason for update

Rain turning to snow over parts of Cornwall leading to some accumulations of snow and then ice forming as skies clear later in the night.



Medium likelihood of low impacts
